BOARD OF TRUSTEES

+ + + + +

BUDGET AND FINANCE COMMITTEE MEETING

+ + + + +

Wednesday, January 15, 2014

The meeting convened at 6:30 p.m., Reginald Felton, Chair, presiding.

BOARD OF TRUSTEES MEMBERS PRESENT:

REGINALD FELTON, Chair ERROL SCHWARTZ ALEJANDRA CASTILLO

JAMES LYONS, PhD., Interim President, UDC

ALSO PRESENT:

BEVERLY FRANKLIN, Executive Secretary JEROME SHELTON, UDC Trustee DONALD RICKFORD, Acting CFO

DAVID FRANKLIN, Budget Director

1	P-R-O-C-E-E-D-I-N-G-S
2	6:35 p.m.CHAIR FELTON: Okay. I'm going to
3	call this Budget and Finance Committee meeting
4	to order.
5	Ms. Franklin, could you do roll
6	call?
7	MS. FRANKLIN: Mr. Felton?
8	CHAIR FELTON: Here.
9	MS. FRANKLIN: Mr. Vradenburg?
10	(No audible response.)
11	MS. FRANKLIN: General Schwartz?
12	TRUSTEE SCHWARTZ: Here.
13	MS. FRANKLIN: Ms. Castillo?
14	TRUSTEE CASTILLO: Here.
15	MS. FRANKLIN: Mr. Isaacs?
16	(No audible response.)
17	MS. FRANKLIN: Dr. Lyons?
18	DR. LYONS: Here.
19	MS. FRANKLIN: Mr. Shelton?
20	TRUSTEE SHELTON: Here.
21	MS. FRANKLIN: Mr. Chair, you have
22	a quorum.

1	CHAIR FELTON: Thank you very
2	much, Ms. Franklin.
3	I want a motion to approve the
4	agenda but I am asking that the motion delete
5	number two and that item seven because of the
6	implications will be addressed in closed
7	sessions.
8	TRUSTEE SHELTON: So moved.
9	CHAIR FELTON: Is there a second?
10	TRUSTEE CASTILLO: Second.
11	CHAIR FELTON: Ayes?
12	(A CHORUS OF AYES.)
13	CHAIR FELTON: Opposed.
14	(No audible response.)
15	CHAIR FELTON: Okay. The ayes
16	have it.
17	Okay. This evening, we have
18	several items to discuss, and we're pleased to
19	have with us the staff to address these
20	issues. We're going to start with the FY 13
21	actuals.
22	MR. RICKFORD: This is unaudited

1 information that I have been trying to get with. We are in the middle of the audit. 2 expect to finish the audit very early next 3 4 week, possibly Tuesday. And I do not have as yet from the audit of any recommendations for 5 adjustments. We have preliminary numbers. 6 7 And I wanted to make sure that I presented it at this meeting because I know we 8 9 do not have another meeting until March, I 10 believe, for the next Board meeting. 11 wanted to make sure that the -- no, no, the 12 Board meets in January, not the committee. 13 CHAIR FELTON: No, the Board --14 oh, you mean the committee. 15 MR. RICKFORD: We wanted to make 16 sure that the representatives all do a good 17 job on our end. 18 CHAIR FELTON: All right. 19 MR. RICKFORD: From operations, we 20 had a total of right near \$56 million on the 21 page. Two of the documents -- the second page

of the document -- for 2013, \$56,423,000.

22

we had operating expenses of \$141 million

which left us with a loss in net operating

expenses of more than operating revenues.

Keep in mind that the District's appropriation

and some other very large items -- the Pell

Grant -- cannot be listed as operating revenue

since it's below the line.

When we count that additional revenue of \$88 million that we got \$75 million from the city, \$2.7 million in investment income and \$10.68 million in other income which is primarily the Pell Grant. And we have a total of \$88 million -- \$88.8 million in nonoperating revenues that gave us an increase in net assets before Capital Appropriation of \$3.9 million. Effectively, that is what is adding to on unrestricted net position.

If we go down to the condensed statement on page one of assets and liabilities, you will see that addition of \$3.9 million plus additions from Capital

1 Relief fund balance. We would have an unrestricted net position of \$17 million --2 3 \$17.19 million. But it's important to note that of that \$17.19 million, it includes money 4 5 that we owe to the Early Childhood Program. That is the \$850,000 every year that we get in 6 7 additional appropriations for that program. That is non-lapsing. Over the years, most of 8 9 that money was not spent. So we still have a balance for them of \$1.7 million. 10 11 In addition, we have a net 12 position of this relief of the capital 13 projects still in there. So that \$3.7 14 million, if you take that from there, the true 15 unrestricted balance at this time is approximately \$13 million. 16 17 DR. LYONS: May I interrupt? CHAIR FELTON: Of course. 18 19 DR. LYONS: But if you look from 20 an operational standpoint, it doesn't mean 21 that of that \$13 million that we do not have 22 some things there that we know we must do

operationally. So I don't want to give the impression that there's no thought that has gone into this.

And one of the items in there would be a subject for an Executive Session.

CHAIR FELTON: And so, for the Board, if there are such things that need to be committed, when would you be aware of them?

MR. RICKFORD: Some of them I'm already aware of. But we don't have a firm number on those things. Some of them are related to some legal issues we have out there. And also some of the items that we've looked at and we've included in the strategic plan, we may want to look at using some fund balance for some of those things. But no decisions, as far as I know, have been made.

CHAIR FELTON: Dr. Lyons, when would you expect that there would be some recommendations on that for the Board?

DR. LYONS: In some instances,

DR. LYONS: In some instances, very soon. There's a couple of items that are

1 ongoing. There are a couple of items where 2 we're trying to tally those processes and 3 totals. I would hope that within the next month, we'd have a much better picture. 4 But as I said --5 CHAIR FELTON: You're not 6 7 optimistic that we would have that by our full Board meeting on January 28? 8 9 DR. LYONS: No, I'm not 10 optimistic. 11 And like I said, I'll have more to 12 say about that in Executive Session because 13 some of this is legal and some is personnel. 14 CHAIR FELTON: Understood. 15 TRUSTEE CASTILLO: Could you just clarify for me some of these entries so that 16 17 I have a better understanding? 18 MR. RICKFORD: Sure. 19 TRUSTEE CASTILLO: Going to assets 20 -- others -- there was a significant increase 21 from 2011 to 2013. What is that other? What does that include? 22

1 We're looking at \$2.2 million. 2 And that's page one of that. 3 MR. RICKFORD: We have in there accrued interest receivable and some 4 receivables from audit components we missed. 5 TRUSTEE CASTILLO: What's an 6 7 example of that -- other receivables within 8 the --9 MR. RICKFORD: Just any 10 transactions we have from the audit components 11 we missed from within the District that we 12 have not collected on as yet. 13 TRUSTEE CASTILLO: Do you have any 14 grants? 15 MR. RICKFORD: Yes. We have 16 grants in there. 17 Yes, some are nongrant, what we would call fee-for-service transactions --18 19 TRUSTEE CASTILLO: Okay. 20 MR. RICKFORD: -- maybe as a 21 profit margin included in it. The grants we 22 record separately.

1 TRUSTEE CASTILLO: Okay. And 2 could you go to the net position --3 nonexpendable restricted net position? 4 MR. RICKFORD: Yes. TRUSTEE CASTILLO: What is that? 5 And I'm sorry. I'm trying to 6 7 understand plain English here. MR. RICKFORD: Sure. 8 Yes. 9 There's been a change because of I think 10 GASBY, statement number 63. The way this 11 information is presented -- I always say as an 12 old timer, we used to use fund balances. They 13 changed that up and they're now using net 14 position. And they've broken it out. 15 And for example, I mentioned earlier that although you see the net position 16 17 here unrestricted as \$17 million, if you break it out more it would have an expendable 18 19 restricted portion which is why I mentioned 20 just now that part of that is for the Early 21 Childhood Program and part of it is related to 22 capital.

1 But effectively, that is the net 2 value of what the University assets -- the net 3 position. If you take your assets and you minus all of the liabilities, that's what we 4 5 are worth. TRUSTEE CASTILLO: So the non-6 7 extendable, what does that include? MR. RICKFORD: The non-extendable? 8 9 One second. I'll give you the breakdown on 10 that. 11 That would include amounts that 12 are owed to the District. That's mostly money 13 that we owe to the District government. 14 CHAIR FELTON: For services? 15 MR. RICKFORD: Well, they pay things on our behalf. 16 17 CHAIR FELTON: Okay. 18 MR. RICKFORD: And we end up --19 the portion, for example, when we get an 20 appropriation from them -- the local money --21 we do not own what is left over. That's why, 22 for example, when we got the \$9.8 million last

year, that was really a residue -- a fund balance that was left over from 2008. We couldn't just spend that money because technically it belongs to the District government. And we do hold it as part of our fund balance restricted. And in at least two cases, I know we went to them and asked them to get us that debt. And that's how we're allowed to spend it.

TRUSTEE CASTILLO: So the last question I have is expendable restricted net position. There was a significant drop from 2011 to 2012. What is that based on? It's right underneath the non-expendable.

MR. RICKFORD: One second. The expendable, the one we have -- grants and contracts -- basically that \$187,000 are basically grants and contracts. That's what you're talking about -- the \$187,000?

CHAIR FELTON: She was asking why the difference. You see how much we had in '11, '12 and '13.

1 MR. RICKFORD: Just as a normal 2 process of the transactions we have every 3 That's just the balance that is left in 4 there. 5 TRUSTEE CASTILLO: It's the balance that was left. 6 7 MR. RICKFORD: Left. TRUSTEE CASTILLO: But does that 8 9 explain why the drop? 10 MR. RICKFORD: Well, the drop --11 well, so you have transactions occurring 12 during the year. 13 TRUSTEE CASTILLO: Yes. 14 MR. RICKFORD: We had a balance 15 last year. In effect, we would have used more than we brought in for those three restricted 16 17 ones -- the funds that would normally flow through the year. So we had less revenue than 18 19 we expended. So we had to reduce that fund 20 balance at the end of the year. 21 There are things that are set 22 aside for specifically, but I can't tell you

1 off the top of my head what they were -- that 2 we expended during the year. 3 CHAIR FELTON: So it has to do with the volume of transactions? 4 5 MR. RICKFORD: Yes. The transactions --6 7 CHAIR FELTON: The cost is unspecified. 8 9 MR. RICKFORD: Effectively last 10 year, we had \$1.7 million left. But there 11 were things -- obligations -- that we had to 12 meet during the year that required us to use 13 that money. 14 Remember, it was restricted for 15 specific purposes. So when we -- yes, when 16 those purposes came up, we had to spend the 17 money for that. That's why we label it restricted. It's that it is not our money but 18 19 it's available to spend for specific reasons. TRUSTEE CASTILLO: So one last 20 21 question. Is this the report that you get, 22 Dr. Lyons, in terms of balancing the budget?

1 DR. LYONS: We get more. I have 2 more information. We talked in greater detail 3 than this. I understand --4 TRUSTEE CASTILLO: 5 MR. RICKFORD: This is something that we generally prepare once at the end of 6 7 the year. But we have monthly reports that we prepare and quarterly reports that would give 8 9 you more in terms of the budget and 10 expenditures as opposed to what our net 11 position for the year -- how we ended up the 12 year financially. 13 TRUSTEE CASTILLO: And I only ask 14 the question only because obviously the management tool for your purposes, Dr. Lyons, 15 I'm sure you can appreciate how the things 16 17 change -18 DR. LYONS: Oh, I agree. And Don 19 and I have talked about this issue. 20 have to from the management side receive more 21 frequent information. We ought to be able to 22 provide your committee and the audit committee

more frequent information. And Don has committed to making it happen because we can't run our business in an end-of-the year kind of reports. And we're committed to doing that.

CHAIR FELTON: Yes. This is a discussion that we continue to have.

So you understand there are things that impact the ability to do that. But nonetheless, it's frustrating for the Board.

Can you talk about this and some of the things that impact the identity of the staff?

MR. RICKFORD: The two significant things that are impacting our ability to present information in a timely manner -- the system -- the management system -- that was implemented I believe in 2011. There are a number of issues that we have to get through. All of the functionality is not being used for the system. And it's created some problems for us. But most important is the lack of staff. We've had a reduction of since last

1 spring, I believe ten positions. We have no 2 controller, no deputy controller. Right now, 3 I don't have a manager of accounting. 4 Seena (phonetic) has been in place for a total of 40 hours. I sign her time sheets today so 5 I know. And I think we have two vacant 6 7 accounting positions. So basically, we're running a 8 9 control operation without staff. There are 10 three accountants whom I don't think anyone 11 would classify any of the three of them as 12 super accountants. One is good. TRUSTEE CASTILLO: We don't need 13 14 to go into the details. 15 MR. RICKFORD: So those are the things that affect us. 16 17 And we have a significant issue with that because we have the management from 18 the central controller's office and the CFO's 19 20 office. 21 TRUSTEE CASTILLO: So my last 22 question, if I may -- and I apologize to my

colleagues -- I know that the issue of the system was something that we tackled last year. It created some problems. Is there any way that we're reconciling this system? Or are we still just in kind of limbo from where we were last year?

MR. RICKFORD: I wouldn't describe it as being in limbo. We are reconciling the system. The problem is that functionally processing transactions and for example, billing for interagency grants is much more difficult because the grant money was not fully functional. So we're working on that now to make those things fully functional.

And the receiving functions for goods and services, we don't have that functionality. So all of that is done manually. It slows up the processes significantly. There's a lot more manual intervention than we should have.

TRUSTEE CASTILLO: Not to mention prone to error.

1 MR. RICKFORD: Yes. Absolutely. 2 CHAIR FELTON: I guess, I don't 3 understand. Okay. The system issue hopefully 4 at some point will be resolved. The personnel 5 issues, if people are placed by the District, what is it that we could do so they understand 6 7 the urgency? It's one thing to have two positions vacant. But it seems to me this is 8 9 a very extreme situation. 10 MR. RICKFORD: Yes. And there are 11 efforts right now. So for those positions, I 12 believe we just got certifications this week. 13 And there will be interview teams that will be 14 meeting the candidates next week for a number 15 of those positions. But there wasn't much help for me 16 17 during this whole process that we don't have a controller or deputy in place. 18 19 CHAIR FELTON: But I do remember 20 one year -- and you remember -- where we 21 actually had folks temporarily assigned. 22 TRUSTEE SHELTON: Yes, we did have

1 temporary positions. My question though is 2 you're making budget information available to 3 your boss on a regular basis. 4 MR. RICKFORD: Yes. 5 TRUSTEE SHELTON: And you're having trouble making information available to 6 7 the Board because its format is in conflict with the format for your boss. 8 9 MR. RICKFORD: Two completely 10 different formats actually. 11 TRUSTEE SHELTON: Right. But the 12 format that has priority in your world is the 13 format that you must give to the District 14 government. 15 MR. RICKFORD: I absolutely have -- well, let me put it this way. I'm judged 16 17 more on that. I would be fired if I don't provide it. 18 19 TRUSTEE SHELTON: And therefore, 20 you don't have the personnel to run two 21 separate information systems. 22 MR. RICKFORD: To produce two sets

1 of reports in the time frame.

2 CHAIR FELTON: That's correct.

MR. RICKFORD: Yes.

TRUSTEE SHELTON: And so, your office is satisfied with the documentation that's available as to the budget for a report for the University basically. Yes? Right?

MR. RICKFORD: Yes.

TRUSTEE SHELTON: Whereas as the

Trustees are not comfortable with the way -
I'm not comfortable -- with the way we're

getting information from the District

government. Therefore, it seems imperative

that you proffer from your stature some

suggestions as to how we as a University can

get timely budget information. Because you

see, whatever commitment -- whatever that

really means, they have to produce for us what

you produce for your boss so that your boss

can do business, so that we must have someone

so that we can do business. Is that something

you're prepared to recommend to the Board?

MR. RICKFORD: Yes, I am. And we will produce those reports for you.

CHAIR FELTON: But I think the question is what else might we be able to do either -- or a simple question would be if you have a system that works for one body, why can't you at least do an echo of that work or us? It has to work practically. If that gives the Board the kind of confidence that we're moving because I don't think anyone here -- at least this year -- is concerned that we're running out of money. But we better have enough but we're not running out. But on the other hand, the system that we are forced to use doesn't give us that confidence.

So I guess my question is is there a way to interpret reports that you provide to the District in a way that the Board feels more confidence about what you're talking about.

MR. RICKFORD: And the answer to that is yes. Yes. And I meet quite

1 frequently with the President on that and I 2 guess we will have to schedule the process for 3 getting this information more frequently to 4 the Board as opposed to just when we meet 5 here. I can provide you with monthly reports. CHAIR FELTON: It's an interim 6 7 measure, but it's better than where we're at. DR. LYONS: Let me answer the 8 9 question for Don. You just asked him if he 10 was satisfied. No, he is not satisfied. 11 TRUSTEE SHELTON: But he --12 DR. LYONS: Wait. 13 TRUSTEE SHELTON: Yes, sir. Yes, 14 sir. 15 DR. LYONS: I can tell you're not satisfied because we've talked about it, and 16 he knows better. He knows what we need to 17 receive. He's working hard. He's worked at 18 19 the University of Connecticut. So he's knows. 20 And we've talked about that. 21 So to that extent, he's satisfied. 22 He said yes. You said yes. That's the wrong

answer because that's not what you're communicating to me. We've talked about it. And as you said, even on an interim measure, if we can use the same reports that you have to give to your folks, then we would have something.

Then I think everybody knows that it's unacceptable for us not to be able to get any reports and have to keep begging and pleading and so forth. But I have a commitment and I have his word that it is going to get better and we are going to have reports more frequently of whichever kind.

But the staff thing though -- and also, he has reported. We've discussed that. And he has reported to his supervisor that the staffing problem is a mess. And that it is restricting us. We've talked about that as well.

CHAIR FELTON: But as a Board, can we do anything else to help move that situation into the District in your view?

1 DR. LYONS: Well, once we decide 2 -- and then I guess here for me is the test. 3 If we say, Don, we need quarterly reports, and 4 you'd been saying this for a whole lot so you don't have --5 CHAIR FELTON: You read my mind. 6 7 DR. LYONS: I understand that. But we're saying as we've talked 8 9 to Don, we need to have quarterly reports and 10 we determine when that is going forward, if we 11 don't get them, then yes, we need to talk to 12 his boss and others because we have to have 13 it. 14 CHAIR FELTON: But there was a decision made at previous meetings. 15 DR. LYONS: Well, I don't know how 16 17 far back you go and so forth. But --CHAIR FELTON: We want to help 18 This is not about blaming. This is 19 you. 20 about --21 DR. LYONS: And I'm not taking it 22 in that spirit. But I'm just saying if we

1 keep having this same conversation, then we've 2 got to go to somebody beyond Don to help him 3 deliver. I mean, that's all I'm saying. I'll feel foolish if I keep coming 4 5 here saying the same thing myself. So we know -- I'm reading the emails and all that. 6 I 7 don't want to keep coming in having the Trustees say to me, Mr. President, we can't 8 9 get any reports. So I mean, at some point, 10 the rubber has to meet the road. Either we 11 get the reports or then we have to have them 12 go --13 CHAIR FELTON: I appreciate that. 14 It's just that we came to the same conclusions 15 several months ago. 16 DR. LYONS: Is that right? 17 CHAIR FELTON: Oh, yes. Since 18 you've been here. 19 DR. LYONS: Is that right? 20 CHAIR FELTON: Yes, sir. 21 DR. LYONS: So I can't plead that 22 I --

1 (LAUGHTER.) 2 CHAIR FELTON: No. 3 DR. LYONS: You cut me off at the 4 pass, didn't you? 5 TRUSTEE CASTILLO: And if I may, it's not the intent -- at least from where I 6 7 stand -- to micromanage the financials but the axiom is an institution is only as good as its 8 9 financial. And it's also telling because if 10 you look at the trend, it really begs a lot of 11 questions. For example, if the Pell Grant has 12 decreased, is that strictly because of the 13 attendance -- the student body -- or is there 14 something else that we should think about? 15 So when I look at these financials, I'm also looking at what's the 16 17 story here, and what can we as the Board of Trustees who serve on different committees try 18 19 to anticipate for the next two, three, five 20 years down the road so these financials can 21 actually be stronger and much more positive 22 for the University.

MR. RICKFORD: And I commit to you that they will be stronger.

We are in the process now -- let
me just back up a bit. When I came here, I
was surprised to find out that we had
implemented a system and we did not procure
the reporting module that posted it. I have
never heard of an organization putting in a
new system and you had no way to pull the
details of the report.

We have since I've been here made arrangements through the CFO's IT shop to implement the reporting tool. We have done one third of the process so far. We have done the budget process which means we will be able to give you the reports that you would like to get.

Now we didn't have that

flexibility. Before that, you would have to

have someone with technical knowledge to write

programs to get a report. And unfortunately,

one of the persons that was laid off just

1 before I started was the only person that had those skills in the Finance Office. 2 So we are without that person. We are without that 3 person and without a tool until recently. 4 The next steps of implementing 5 that process would be for the EP function and 6 7 also for the student -- the student accounting function -- if you want to get that because 8 9 that's in the area from the revenue standpoint 10 that we need to do a lot of analysis that we 11 cannot do now because we have no tools to 12 massage the data. 13 TRUSTEE SHELTON: Excuse me. Tn 14 the system that you're using --15 MR. RICKFORD: Yes. TRUSTEE SHELTON: -- there are 16 17 modules or apps that we're learning to call them that would make that process applicable. 18 19 Have there been any requests for these apps?

MR. RICKFORD: This is the university system. This is not a solar

Can we as a university purchase those apps?

20

21

22

1	system.
2	TRUSTEE SHELTON: But the system,
3	you're saying to me, is incomplete in its
4	reporting modules.
5	DR. LYONS: Was.
6	MR. RICKFORD: Was.
7	TRUSTEE SHELTON: And you've
8	gotten some support from
9	MR. RICKFORD: From the central
10	CFO. They're allowing us to use their in
11	effect software.
12	TRUSTEE SHELTON: Which is
13	compatible with the system we have?
14	CHAIR FELTON: Yes. Absolutely.
15	TRUSTEE SHELTON: So how long has
16	that been accessible?
17	MR. RICKFORD: Three weeks.
18	CHAIR FELTON: Very recent.
19	TRUSTEE SHELTON: Because if you
20	have the system, we would anticipate the
21	information. But on three weeks
22	MR. RICKFORD: And that is only

1 for addressing part of the reporting 2 requirements, mostly for budget-related issues, budget and expenditures and so on. 3 4 But we have now applied that 5 towards the student accounting system so that we can massage the other two and so forth. 6 7 And more in the controller's office, too. CHAIR FELTON: Well, we appreciate 8 9 the update. But I think you understand how we 10 feel about it. 11 Absolutely. MR. RICKFORD: 12 CHAIR FELTON: Okay. If there are 13 no more questions, can we move to the next 14 item, please? 15 TRUSTEE CASTILLO: Yes. 16 CHAIR FELTON: FY 14 budgeting 17 actuals. 18 MR. RICKFORD: For FY 14, we just 19 started the year with somewhat of a concern 20 over the overestimation of the tuition 21 revenue. But based on steps that were taken 22 by the President and the management team, that

1 issue has been resolved. So at this point, I 2 do not have significant concerns that we have 3 any budget pressures. So I will report on the various funds that we've received, we budgeted 4 5 and what we've spent to date. For the appropriated funds, the 6 7 appropriation was \$66.7 million. Approximately, we've spent and obligated so 8 9 far \$10 million of that. That leaves a 10 balance that as of December 31st of \$56.6 11 million. 12 For the --13 CHAIR FELTON: Where is that? 14 MR. RICKFORD: On page one --15 CHAIR FELTON: The \$56.6 million. 16 MR. RICKFORD: Down to the bottom. 17 We highlighted by green. Sorry. The green column. 18 19 For the indirect costs, we've 20 budgeted \$1.269 million. To date, we've spent 21 none of that. So that balance is still fully 22 available.

1 The post-secondary education fund 2 was budgeted at \$7.7 million. And we've spent 3 \$842,000 of that. So we still have \$6.2 million available. 4 5 For the expendable endowment income fund, it was budgeted at \$750,000. 6 7 We've spent \$347,000 with a balance of \$402,000 remaining. 8 9 And for the tuition fund, it was 10 budgeted at \$30.8 million. We've spent \$9 11 million leaving a balance of \$21 million. 12 But just as we arrived, I 13 mentioned that we had overestimated the 14 tuition revenue. So that \$21 million if we 15 were to do a budget amendment, it would drop it down to approximately \$17.8 million or so. 16 17 So \$4 million that the tuition revenue was

These are both in the PS area and

overestimated by. And those budgets were

allocated so we implemented reductions in

make sure they do not spend that money.

individual budgets for each functional area to

18

19

20

21

22

1 NPS, we implemented those reductions. In the 2 PS area by not filling positions that are vacant until later in the year. And some, we 3 will not fill at all. In the NPS area, there 4 5 was an across-the-board cut of four percent. 6 CHAIR FELTON: So basically, you 7 put a cap on the expenditures --8 MR. RICKFORD: Yes. 9 CHAIR FELTON: -- to try to make 10 the \$4 million overestimate. 11 MR. RICKFORD: Yes. 12 CHAIR FELTON: Sorry. Ouestion? 13 TRUSTEE CASTILLO: May I? 14 CHAIR FELTON: Sure. 15 TRUSTEE CASTILLO: So how do you 16 assess the burn rate? How do you assess the 17 burn rate? Are some units burning through 18 their allocated funds quicker than others? 19 Are you assessing that at all? 20 MR. RICKFORD: Well, yes. 21 put it this way. Some of the units are more 22 efficient in using their money. There is a

1 tendency of some other units to spend their 2 money very late in the school year. 3 TRUSTEE CASTILLO: And do you have 4 any explanation as to why we overestimated by \$4 million the tuition? 5 MR. RICKFORD: My understanding is 6 7 that since the budget is done so much in advance of the approval process, there were 8 9 projections based on the expectation that the 10 Board would have approved a tuition increase 11 last year. And my understanding is the Board 12 had rejected that increase. That's primarily 13 the reason for the overestimate. 14 TRUSTEE CASTILLO: And then my 15 last question, under the "agency financial operations total," what is the accounting 16 17 operations? What does that entail at a total of \$1.9? 18 19 MR. RICKFORD: You're on page two? 20 TRUSTEE CASTILLO: I'm on page 21 one. 22 On page one, you have "agency

1 financial," the second pink entry. What does 2 accounting operations include? 3 MR. RICKFORD: That is our office -- the Finance Office. 4 5 TRUSTEE CASTILLO: Just for my edification, I see that -- and I'm just 6 7 picking randomly -- the law school has a revised budget of \$1.7 million. And the 8 9 accounting operations has a revised budget of 10 \$1.9 million. 11 MR. RICKFORD: This is by fund. You have to look at all the different funds. 12 13 TRUSTEE CASTILLO: Okay. 14 MR. RICKFORD: This is just for 15 the appropriated funds. 16 TRUSTEE CASTILLO: Appropriated. 17 MR. RICKFORD: Yes. This does not include the money that they get from tuition 18 19 and from fees and so on. 20 TRUSTEE CASTILLO: Then why is 21 accounting so high? 22 MR. RICKFORD: It's because we're

1 using city-appropriated dollars for our whole 2 operations. We generally don't use a lot of 3 -- any, I think -- I don't recall -- I don't 4 think we use much -- no, we don't use any of the tuition money, right? We use all 5 appropriated dollars for the accounting 6 7 operations and finance operations. TRUSTEE CASTILLO: Okay. 8 Because 9 I'm curious since you said that there were so 10 many vacancies. You weren't fully staffed. 11 So I'm just wondering how does that money get 12 expended? Is it IT services that you pay for? 13 Is it --14 No, no. MR. RICKFORD: If we are 15 not staffed, the money lapses into what you would call the fund balance for that position. 16 17 Yes. In other words, had 18 DR. LYONS: 19 the position been filled, they wouldn't expect 20 much more money. 21 TRUSTEE CASTILLO: Okay. 22 TRUSTEE SHELTON: Under your

1 indirect costs recovered --2 MR. RICKFORD: Yes? 3 TRUSTEE SHELTON: -- \$1.265 million? 4 5 MR. RICKFORD: Yes. TRUSTEE SHELTON: And zero spent? 6 7 MR. RICKFORD: Yes. TRUSTEE SHELTON: Did they submit 8 9 a plan of how they are planning to use this 10 money over the year? 11 MR. RICKFORD: No. I think that 12 is an issue. I think the deans have requested 13 that we meet with the Presidents on it. 14 may remember seeing a copy of one of the 15 emails from the Dean of the School of Business on that. 16 17 Basically in the past, the University would allocate those funds 18 19 partially to back the schools to help 20 encourage research and so on. And some of it was used for other administrative costs. 21 22 a full determination has not been made as yet

as to how we will allocate -- how much we will allocate back to the schools.

That was done in the past except

That was done in the past except for last year. I believe it was funded for use to meet the requirement for the community college.

DR. LYONS: Exactly. And so, the University had decided to do what it is the deans want to do and that is use some of its money to incentivize -- help people understand that if you write grants to bring in indirect costs, your school -- your department -- will benefit from it. And money was distributed but then it was cut out of the budget. And I know the deans want to talk to me about how we're going to handle this going forward.

TRUSTEE CASTILLO: Okay.

DR. LYONS: And they already know that I strongly support having some of that money go back to the departments.

TRUSTEE CASTILLO: May I ask one more question?

So we're entering now the second quarter. And some entries have zero monies that have been spent.

MR. RICKFORD: Yes.

TRUSTEE CASTILLO: How do you manage or monitor or encourage folks to use this money in a kind of quarterly way? Your statement at the beginning was that some people are better than others.

MR. RICKFORD: Okay. Sure.

TRUSTEE CASTILLO: But if you're entering the second quarter and a department hasn't used anything, is it because you haven't captured it or is it because they just haven't used it?

MR. RICKFORD: Because they
haven't used it because keep in mind that what
-- over two thirds of our expenditures are
personnel-related. So in the case of NPS,
sometimes it's just strategic decisions of
when they want to acquire whatever it is they
plan to use that money for. So there's no

real formula how fast or how slow they'll use it. But I would say that I have noticed that some departments are much slower than others expending their money.

TRUSTEE SHELTON: And you have historic data on the performance of these departments to know that they will spend it or do you do a mid-cycle review and then rebalance the budget?

MR. RICKFORD: Yes. I think
historically in the end, most of them would
spend their money. Last year was a bit
different in 2013 because I think people were
just I think cautious about spending because
of the financial pressures we had. And in the
end, some departments did not use all of their
allocations. But generally people
historically if you look back, in the end they
would spend their your money but at different
rates during the year.

TRUSTEE CASTILLO: May I follow up on that?

1 CHAIR FELTON: Sure.

I look in my agency, I'm suspicious when people are not using their monies and spend it at the end because they're spending the money in order to make sure that it doesn't go back. In our case, it goes back to Treasury.

So let me go back to the original question that I asked. What mechanisms are there to ensure that people are strategically using their monies in a timely manner to avoid the free-for-all spending -- and I don't mean it in that term, but for a lack of a better term -- just the quick spending at the last quarter?

MR. RICKFORD: I cannot tell you that we have any mechanisms in place to prevent that, other than the normal procurement process that if the procurement office sees that people are over-ordering things they may question it. Auditing? Of course, they're auditing. But there's no

1 mechanism in place to monitor that. 2 CHAIR FELTON: Let me ask a 3 clarifying question. I've worked in 4 organizations where you have to project when 5 you expect to spend the money -- a plan. assuming we don't have that requirement. 6 7 MR. RICKFORD: Only broadly, we usually have to give them projections. 8 9 CHAIR FELTON: The departments? 10 MR. RICKFORD: The departments, 11 There are no -no. 12 TRUSTEE SHELTON: For the record, 13 we've had a history of freezing the assets -this is Jerome Shelton - freezing the assets 14 15 or making it subtly clear that you can't anything because we were holding it for 16 whatever reasons as we tried to make sure that 17 we were not over budget. At the end of each 18 19 budget year, we would almost have a moratorium 20 on spending from the dean from the schools 21 whereas all of the executive spending would be 22 done from one office basically is what I

1 observed.

so the staff and the personnel used to not having full access -- I think -- full access to their funds because at some point someone will stop it or some emergency will supersede the direction of the funding.

CHAIR FELTON: Another comment before we move on?

DR. LYONS: Yes. There's -- and I don't want to open this up -- but there's another issue implicit in your question. And that is if we can ever get ourselves on a true budget process -- institutional budget process cycle -- you can deal with that because if you're not spending your money, you don't need it the next time around.

CHAIR FELTON: Right.

DR. LYONS: And so, we have to develop a budget process that will allow us to sit down and talk about that so that I can look you in the eye and say well, look, last year you didn't send all that money or you

didn't spend it until August and you sat on it until October.

But we don't have that kind of process in place. And I know we're talking about it and we've got to get there.

CHAIR FELTON: Any more comments before we move on? I appreciate that discussion. Can we move to the next item, please?

MR. RICKFORD: The next item is the raw numbers for the FY 15 budget submission. And for the local funding, the city has notified us that they're allocating \$66.7 million. Tuition-estimated budget this year is around \$28.7 million. And for post-secondary education, there was a shifting of some of those funds into tuition. So the post-secondary is \$3.275 million this year. The endowment fund is the same as it was last year -- \$750,000. The indirect costs we're budgeting at \$1.649 million for a total budget for us of unrestricted budget of \$101.2

1 million. 2 TRUSTEE SHELTON: Would you explain the deficit of \$3.778 million in post-3 4 secondary? 5 MR. RICKFORD: Okay. That was just the shifting of -- we record those funds. 6 7 Then we report them. You may recall that I mentioned earlier that in 2014, the tuition 8 9 budget was overestimated by approximately \$4 10 million. 11 TRUSTEE SHELTON: Okay. 12 MR. RICKFORD: Effectively, we 13 have shifted some of the post-secondary 14 revenue into tuition -- tuition and fees. 15 There were fees that were previously recorded as post-secondary. We put it in the tuition 16

So if you take the reduction of
the \$4 million that was overstated in '14 -it was overestimated in '14 -- and we shift
over the difference from the post-secondary
fund and the additional amount that we reduced

17

18

19

20

21

22

and fees category.

that to come up with the tuition revenue that we took into consideration a collection factor that we do not collect 100 percent of what we charge the students.

CHAIR FELTON: Other questions?

TRUSTEE CASTILLO: Just a quick

question. So a federal grant -- Pell Grant -excluded/included, am I to interpret this as
a Pell Grant? Federal grants?

MR. RICKFORD: Yes. Okay. In '14 because of I would label it as misinformation that was given to the Council, they removed the Pell Grant budget -- the amount for Pell Grants. And we now have to go back to get that budget reinstated because according to the rules that the governmental accountant standards boards have, we have to record it as a grant revenue and expense in the grant area and allow provision for a Pell Grant. We cannot record it as a pass-through as is done in private universities. And under the GASBY rules, we cannot use it. We're under the

1 GASBY rules, and there was a misinterpretation 2 during the budget approval process last year. 3 And as a result, the Council reduced the budget by the amount of the Pell Grant. 4 5 CHAIR FELTON: And they should not 6 have. 7 MR. RICKFORD: They should not have. 8 Yes. 9 CHAIR FELTON: So it's an 10 accounting issue? 11 MR. RICKFORD: Yes. 12 CHAIR FELTON: Other questions? 13 (No audible response.) 14 CHAIR FELTON: I guess my comment, 15 of course, is again our local subsidy continues at the \$66 million in spite of our 16 17 discussion. 18 Okay? Let's move forward. Tuition and fees? 19 20 DR. LYONS: Yes. Mr. Chairman, 21 that general topic is related to the letter 22 that I sent to you.

one of the things that has caused so many strategic plans to end up as shelf documents -- well, there are two major reasons -- one, the lack of an implementation plan after we do all that good work, and second, funds to support the plan. And so as we developed and went through the strategic plan process, we did build in some financials so that we can really carry out the plan, take those dollars and really invest it in the plan.

And so, we are proposing -- and we haven't settled on all of the specifics -- but we just wanted to make it clear that we're going to be coming back to you proposing that the Board adhere to its own policy of tuition increase and that you would consider this policy -- implementing your tuition policy -- over the next five years -- 2015 to 2020.

And then there are some new fees
-- a new fee that we're proposing which would
support the expanded career and professional

development programming that we're going to really ramp up, and in addition to fee increases in the area of athletics and the University Student Center fees.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

Now, we realize that we're trying to grow the enrollment. And so, we've got to look at the total fees because clearly we don't get anywhere if we increase the fees by X dollars and we lose 300 students. So as we put this plan together looking at in a given year would it look like if we increased the tuition based on the Board's model, increase the athletic fee, Student Center fee, et cetera, how will students recoup those dollars, would we expect the Pell Grant to pick up some of that, what do we discount in terms of putting some of that money back into student scholarships. We'll have to look at the package because as I said we don't want to drive students toward having to borrow more money to stay here nor do we want to run students away because we're putting more of a

burden on them than they can handle.

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

But I did want to say to you that
we are looking at all of these items as a part
of now implementing the strategic plan. And
there is a process for tuition increases in
conversation. We have to obviously interact
with our students and faculty and staff, et
cetera. So we just want you to know that
that's our thinking, that's what we're
planning. And we will be coming back to you
with specific dollar amounts and presenting
this.

CHAIR FELTON: Well, this is certainly consistent with what the Board approved.

16 Any comments?

17 (No audible response.)

CHAIR FELTON: Okay. Well, I

think you must continue to remind us of our

commitment.

DR. LYONS: But seriously though,

22 | we want to.

1 If the reality is -- and we all 2 understand that -- that you can produce the best looking document and the best worded 3 document and the most visionary document 4 that's ever been produced. So if you don't 5 have an implementation plan and strategy and 6 7 if you don't have the resources to put behind it, it will go on the shelf with the others. 8 9 CHAIR FELTON: I think we do 10 understand that. As a Board, I think the 11 concern continues to be the local subsidy. 12 DR. LYONS: Right. 13 CHAIR FELTON: And politically, we 14 get this gee, you shouldn't raise tuition and 15 you shouldn't charge more fees. But these are with the increases in subsidy. And that's 16 where we're in finances. 17 TRUSTEE SHELTON: 18 I'm sorry. We 19 just have to be more dynamic in the areas that 20 we control. We're going to have to squeeze 21 more blood out of a turnip, if you will. 22 We're just going to have to look at where we

can make money and start making money in those areas. That's why I consistently ask what is the parking doing. I mean, eventually we'll know.

But those kinds of revenue makers

-- we had an event at the gymnasium where it
was a boxing match. There is a lot of need
for large spaces that help generate outside
income.

I was in a discussion today is we ought to start talking to Gold's Gym about using the pool, negotiating co-habitation on this hill. Those are things that get us money. And we have to start looking that way so that we begin to control our own destiny.

CHAIR FELTON: I guess the larger question is is that the message that's going out from your office.

DR. LYONS: Well, there are two -CHAIR FELTON: Identifying

opportunities. That's not specific, in other
words.

1 DR. LYONS: Well, yes. I don't know about the co-habitation. 2 3 (LAUGHTER.) 4 TRUSTEE SHELTON: I was talking 5 about using the same space. DR. LYONS: Oh. 6 7 (LAUGHTER.) DR. LYONS: I just wanted to be 8 9 sure. 10 TRUSTEE SHELTON: You all have 11 large vocabularies. Those of us with small 12 vocabularies have other definitions of co-13 habitation. DR. LYONS: I just wanted to be 14 15 sure we're on the same page. But we are talking about -- and in 16 17 the strategic plan and before the strategic 18 plan, we have been talking about how we can generate additional revenue. The reason that 19 20 Ms. Jumper and her staff and the principal 21 education people moved to have that boxing 22 match here was to get in the direction to move

into the notion and help people understand
that we have facilities, we can do great
events. We didn't make any money on that one
but we have invited them to come back.

Now, you can have issues with boxing. But aside from that, the purpose was to show that we can do some things and generate revenue.

We have the new facility coming on line. There are definite plans, and we talk about those plans. So it is consistent. We have to exercise more control over what we can do. And we've got a big facility here strategically located. We have a lot of events here. And we're talking about stepping up those events. We had a national pageant here.

One of the challenges you have, of course, is people don't want to pay. But we'll have to work through that. And they want to come in your facilities and don't want to pay but so much. They don't want to pay

market rates. But I had a lady tell me well, if I was going to pay that, I could go to the Washington Hilton. Well, that's true. But we can do some things for you. You can save money and we can make money. But that is definitely part of our strategy.

TRUSTEE CASTILLO: Dr. Lyons,
quick question. I would have responded to
that woman that said I can go to the Hilton,
she could, but it may not be available because
there's so much demand for space in this town.

Under whose portfolio would that fall under -- the concept of looking at ways to generate funds? Is it a facility? Is it a committee? Is it something that comes out of your office? Where does that live?

DR. LYONS: I think that it's really institution-wide. There's no single portfolio. Probably the facilities area -- that's Jumper's area -- talks about it more than anyone else. But I think that's for obvious reasons. It's over the space and is

involved in it.

But I think there's a general understanding as again expressed in the strategic plan and before the strategic plan that we've got to do more to raise money. That's why we're looking at expanding our continuing education operation, for example -- getting into training and customized training before we can generate revenue.

But it isn't housed in a single unit or division specifically.

CHAIR FELTON: But I guess added to that is where is the push coming from?

DR. LYONS: From all of us. I mean, I think it's part of the culture.

Everybody knows that we need to do more. And we talk about it all the time. And so, it isn't any single person's -- well, let me back up -- in university advancement. If you look at a university organization, university advancement would be the place where that's driven. I misspoke. That's where you have

the university advancements. They're responsible for fund raising, in many places grants and contracts, alumni relations, et cetera. So that would be the portfolio person.

CHAIR FELTON:

But again, we all talk about it.

Yes.

DR. LYONS: Housing, you've heard our Vice President of Student Affairs stand up talking about doing things in the residence halls during the summer. You heard our Vice President for Facilities. So everybody understands that. But the person whose job this is -- whose job is on the line in that arena would be the Vice President for University Advancement.

CHAIR FELTON: Along with that -probably not tonight -- but we'd be interested
in what are some of the things that are going
on and what are some of the incentives that
are planned so that people not only are
personally committed but they see that their

program or their department could benefit
through some revenue sharing. I mean, I just
thought that wouldn't be that significant an
option.

DR. LYONS: Well, it is an option.

And again, we recognize that and accept that

for the main reason that Trustee Shelton

pointed out. I mean, it's been made very

clear to us that the local subsidy is not

going to change in the immediate future. I

mean, so you can't even ask for more of a

local subsidy if the budget process tells you

what your mark is for the next year. So we

recognize that and understand that.

And as I said, at least at the top leadership level, everybody is talking about that. And I think you'll see results.

CHAIR FELTON: Okay. Thank you.

Again, I want to express my
appreciation of the kind of discussion we've
had up until this point. We'll now entertain
a motion to move into Executive Session.

1	Okay. Can I have a motion of a
2	Committee member to move into Executive
3	Session?
4	TRUSTEE CASTILLO: Motion to move
5	into Executive Session.
6	CHAIR FELTON: Is there a second?
7	(No audible response.)
8	CHAIR FELTON: All right. I'll
9	second it.
10	Roll call, please. Well, let's
11	wait until the General returns. He's on a
12	phone call.
13	MS. FRANKLIN: Okay. Mr. Felton?
14	CHAIR FELTON: Yes.
15	MS. FRANKLIN: General Schwartz?
16	TRUSTEE SCHWARTZ: Here. Yes.
17	MS. FRANKLIN: Ms. Castillo?
18	TRUSTEE CASTILLO: Yes.
19	MS. FRANKLIN: Mr. Vradenburg?
20	(No audible response.)
21	MS. FRANKLIN: Dr. Lyons?
22	DR. LYONS: Yes.

Neal R. Gross and Co., Inc. 202-234-4433

1	MS. FRANKLIN: Mr. Isaacs?
2	(No audible response.)
3	MS. FRANKLIN: Mr. Shelton?
4	TRUSTEE SHELTON: Yes.
5	CHAIR FELTON: The Budget and
6	Finance Committee of the Board of Trustees has
7	voted to enter Executive Session in accordance
8	with Section 2-575(a)(b) of the D.C. Code for
9	the purpose of discussing the appointment,
10	employment, assignment, promotion, performance
11	evaluation, compensation, discipline,
12	demotion, removal or resignation of government
13	appointees, employees or officials.
14	The Committee will now begin the
15	Executive Session.
16	TRUSTEE CASTILLO: I have an 8:00
17	o'clock conference call.
18	CHAIR FELTON: We will not be
19	coming back.
20	(Whereupon, at 7:24 p.m., the
21	hearing was adjourned.)
