

UDC at a Glance

History and Mission

Chartered in 1974 as an urban land-grant institution with an open admissions policy, the University of the District of Columbia (UDC) is the only public institution of higher education in the District of Columbia. A comprehensive university offering quality, affordable post-secondary education to District of Columbia residents at the certificate, associate's, baccalaureate, and graduate levels, UDC provides programs that will prepare students for immediate entry into the workforce, for the next level of education, for specialized employment opportunities, and for lifelong learning.

Campus and Facilities

The main campus of the University of the District of Columbia is located at Connecticut and Van Ness Street in northwest Washington. Some UDC programs are offered at Reagan National Airport and at other off-campus sites. All University buildings are easily reached by public transportation. On-campus facilities include up-to-date equipment in many fields, including a printing laboratory equipped with computerized typesetting equipment and offset presses, computer laboratories, laboratories for the physical and life sciences, fine arts studios, music practice rooms, and media learning laboratories.

Faculty

The University's faculty is organized into nine departments within the College of Arts and Sciences; four departments within the School of Engineering and Applied Sciences; two departments within the School of Business and Public Administration; and the Learning Resources division. There is no separate graduate faculty; most faculty members who teach graduate courses also teach undergraduate courses. All faculty members serve as advisors or academic counselors.

Undergraduate Degree Programs

UDC offers 47 programs leading to a baccalaureate degree and 23 programs leading to an associate's degree. The University's undergraduate division is comprised of three schools: the College of Arts and Sciences; the School of Engineering and Applied Sciences; and the School of Business and Public Administration.

Athletics

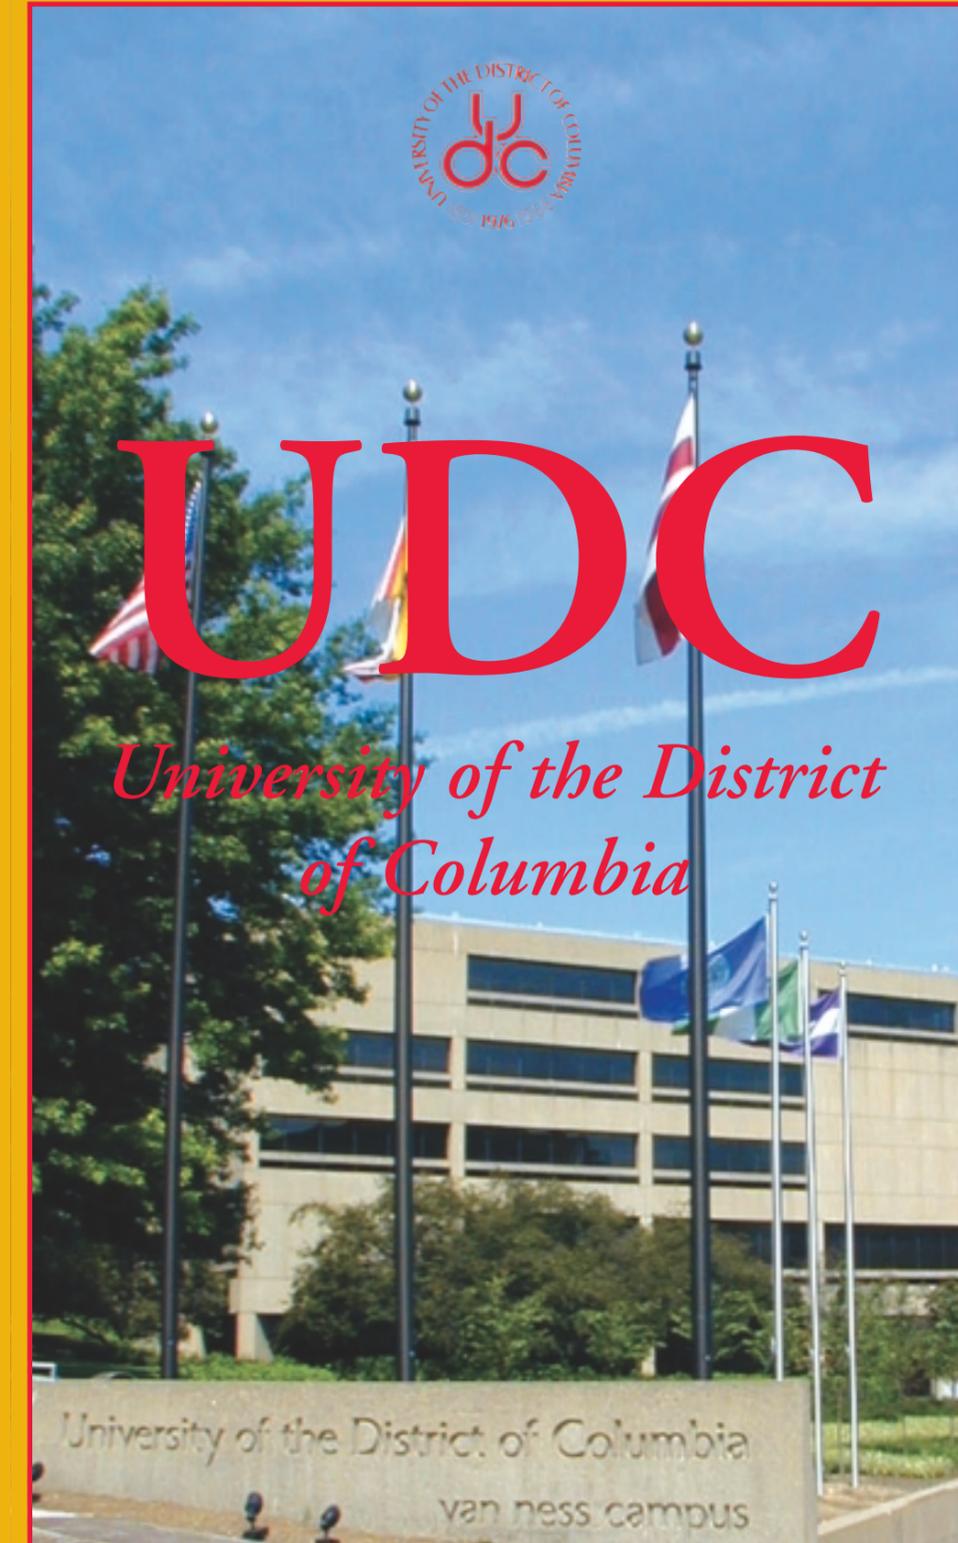

UDC participates in the National Collegiate Athletic Association, Division II. Men's teams include basketball, cross-country, soccer, and tennis; women's teams include basketball, cross-country, volleyball, and tennis.

Costs

Undergraduate tuition for full-time resident students is \$75 per credit hour; for non-resident students, tuition is \$185 per credit hour. There is an additional student fee of \$135—to cover student activities and miscellaneous services—per student.

Financial Aid

The University's student aid program is designed to meet the needs of eligible students by providing grants, part-time employment, and loans. The amount of assistance awarded is governed by the availability of funds, a student's academic progress, and the amount of financial need. Students can complete the Free Application for Federal Student Aid (FAFSA) to determine eligibility for all federal and institutional aid programs administered by the University's Office of Financial Aid. The application deadline is March 15.

UDC: A Tradition of Excellence

The University of the District of Columbia (UDC) is at once very old and very new. Founded in 1976, UDC has origins through its predecessor institutions since 1851. UDC meets the higher education needs and aspirations of the people of the nation's capital through excellence in teaching, research, and public service.

The University maintains an open admissions policy for District of Columbia residents who have earned a high school diploma or a General Education Development (GED) certificate. Our student-friendly staff anxiously await prospective students so that they can provide them with personalized care and attention to ease their transition into college life.

Experience & Knowledge

Whether you are seeking a new or advanced career or merely personal fulfillment, the education and experience obtained at the University of the District of Columbia can serve as the catalyst to achieve your goals.

The University's faculty and staff are committed to helping you find the path to a successful, rewarding future. The University offers more than 75 challenging and rewarding academic programs for all levels of postsecondary education in a wide array of fields, including Elementary Education, Law Enforcement, Health Education, Biology and Political Science, to name only a few.

As a UDC student, you'll have access to instructional support services in state-of-the-art laboratory settings that offer individual and small group tutorials, workshops, seminars, and/or computer-assisted instruction to enhance your academic instruction.

You'll also be given ample opportunity to cultivate your student interests. UDC offers a variety of clubs and organizations that address diverse student interests and concerns and provides a climate for discussions on local, social, and personal issues.
