

Second Annual Research Symposium DRAFT Agenda
March 10, 2011, Building 41, A-03
10:00-5:00pm

Time	Presenter	Title
10:00 AM	Beverly Hartline	Welcoming Remarks
10:20-10:40	Nian Zhang	Runoff Quantity Analysis of Urban Catchments Based on Neural Networks Method
10:40-11:00	Cherie Ann Turpin	Afrofuturism: Humanities, Technology, and Creating Intellectual Communities
11:00-11:20	William White	Procurement Professionalism: The Recognition of a Career
11:20-11:40	Pawan Tyagi	Nanoscale Devices for the Next Generation Computers and Bioengineering Applications
11:40-12:00 PM	LaVern Blagmon-Earl, M.B. Racine, Helene Krauthamer and Christine Kroll	Assessing the SOAR ⁴ Program
12:00-1:00	LUNCH/Poster Session	
1:00-1:20	Joshua Lasky and Shauna Brew	Vending Machine Energy Audit: Campus-Based Research for Operational Efficiency and Sustainability
1:20-1:40	Fredric D. Ratliff	The Effects of Using Video Technology and Video Websites to Aid in Enhancing Concepts Taught in Mathematics
1:40-2:00	Roland Kamdem and Paul Cotae	On the Partial Ordering of Discrete Memoryless Channels
2:00-2:20	Helene Krauthamer and Daniel Soodjinda	Assessing the UDC Pilot Online Writing Program
2:20-2:40	Meena Srinivasan	Cloud Applications for Educational Institutions
2:40-3:00	Sasan Haghani	Performance of Selection Combining in Two Wave with Diffuse Power Fading
3:00-3:20	Break	
3:20-3:40	Paul Cotae	Underwater Wireless Sensor Data Acquisition System
3:40-4:00	Rosie A. Sneed	The Effects of Water from the Anacostia River Watershed on the Survival and Regenerative Capacity of <i>Dugesia Tigrina</i>
4:00-4:20	Sandra Jowers-Barber	The Oral History Project at the University of the District of Columbia
4:20-4:40	Angelyn Flowers	Pilot Study Analyzing the Utility of a Model for Examination of the use of Social Media in Terrorist Recruitment and Radicalization
4:40-5:00	Closing Remarks and Reception
