## Attachment A

**Submitted questions for Request For Proposal GF-2025-R-0019 for Network Resiliency Analysis Services, received as of April 29<sup>th</sup>, 2025 at 9:00AM local time, are as follows:**

#	Question	Response
1	Is there a proposed timeline for this project? What are the major milestones or events driving the proposed schedule for the project?	Provided in RFP Solicitation GF-2025-R-0019 Section F - 12 weeks beginning at or around June 2
2	Do you have a budget in mind for this project and can you share that with us? By understanding your budget expectations, bidders can maximize their scope of work within your financial constraints and recommend ways to meet your requirements with your budget.	The University has received an IGE from Industry Representatives. This information will not be released as part of the solicitation process.
3	Are you willing to share a list of all bidders who have expressed an interest in this project?	OCP has released all vendor information collected from the Pre-Proposal Meeting under Amendment GF-2025-R-0019-001.
4	Will you share all questions and answers from all potential bidders?	OCP will share all questions and answers submitted by interested parties in relation to RFP GF-2025-R-0019 as Amendments posted to the UDC OCP Solicitation webpage, available at: <a href="https://www.udc.edu/about/administration/procurement/solicitations">https://www.udc.edu/about/administration/procurement/solicitations</a> under the 2025 subsection.
5	Is IT fully centralized?  Are there any in-scope networks or network-related systems managed outside of central IT?	Hybrid Environment  Hybrid Environment
6	Who is the executive sponsor for this project?	UDC Office of Information Technology/ Office of the COO
7	Has UDC conducted a security assessment using NIST CSF or a similar framework that will be shared with the contractor upon award?	Yes
8	Is there an incumbent and are they eligible to bid on this project? If so, who was the incumbent and what was the value of the contract?	There is no incumbent currently providing NRAS to the University
9	Will the winner of this project be prohibited from bidding on subsequent equipment, software and integration services provided as the next phases of the network modernization?	No

10	Significant portions of the scope of work appear to have been written specifically with a Cisco integrator in mind. Would you consider an alternative, vendor agnostic approach that has been successful at many other higher-education institutions? Is the objective of Section C.8 (Smart Workspaces) to ensure the network architecture is ready for a highly mobile workforce or to specifically deliver on the Cisco-centric items enumerated in C.8?	Please submit your best proposal, all options will be considered and evaluated according to the University's selection criteria
11	There are approximately 4 business days between the bidders' conference and the proposal due date. Fewer days if any bidder questions are not answered in the bidders' conference. Will you extend the due date to provide bidders an equitable opportunity to respond after questions have been answered?	RFP GF-2025-R-0019 has been extended pursuant to Amendment GF-2025-R-0019-001; this includes the period for vendors to submit questions. Please refer to Amendment GF-2025-R-0019-001 for the close date for vendor questions and RFP close date.
12	The 51% requirements (H.5) appear to be focused on construction projects. As this project will not have any physical construction and we will not be hiring new staff to support this effort, are we required to complete the extensive paperwork in H.5, or is only completing the top section that indicates no new hires adequate?	The vendor is required to conform to the requirements of the solicitation, to include Section H.5 "51% District Residents New Hires Requirements and First Source Employment Agreement"; this includes, but is not limited to, completion and submission of Attachment J.6 "Department of Employment Services First Source Employment Agreement, New-Non Construction First Source Agreement 2" and Attachment J.10 "Revised First-Source Employment Plan – Contracts Between \$300,000 and \$5 Million – February 2018". When completing Attachment J.10, the vendor may respond with "Not Applicable" or "N/A" in form fields when appropriate, such as to denote that the vendor will not be hiring new staff in support of goods/services pertaining to GF-2025-R-0019. Both Attachment J.6 and Attachment J.10 are required to be completed and submitted in response to Section H.5.

**Submitted questions for Request For Proposal GF-2025-R-0019 for Network Resiliency Analysis Services received before May 2<sup>nd</sup>, 2025 by 2:00PM local time will be responded to promptly via an Amendment to the RFP, which will be posted to the University's solicitation website available at <https://www.udc.edu/about/administration/procurement/solicitations>, under the 2025 subsection.**
